MARKED UP VERSION SHOWING CHANGES

11. (amended) The [method] system of Claim 10, further comprising:
computer readable code means for determining that a user is attempting to modify an existing asset in one of the Web servers;
computer readable code means for unlinking the asset from the database;
computer readable code means for allowing the user to update the asset to render a modified asset;
computer readable code means for crawling the modified asset to identify assets and hyperlinks therein;
computer readable code means for storing data representative of the assets and hyperlinks of the modified asset in the database; and
computer readable code means for relinking the database with the modified asset.
